

29th June 2022

Dear Parent/Carer

Re: Bromcom – My Child At School App

As you are aware we currently use the School Gateway App and ParentPay for communicating and payments within school.

From Thursday 1st September we will be using a new parent app called **My Child At School (MCAS)**. The parent app will become our preferred method of communication with you using app notifications.

What is MCAS?

MyChildAtSchool (MCAS) is a portal that can enable parents to view their child's academic performance in real-time via a web browser or mobile app. This facility allows exclusive access to key academic dates, attendance information and the personal details the academy holds for you and your child. The academy are using all of the following modules which are available in MCAS:

- Notifications
- Pupil details check
- Attendance
- Parent consents
- Parents evening booking
- Clubs and trips
- Dinner money
- Online payments
- Behaviour
- Reports

Downloading the app and logging in

We are encouraging you all to take the time to install the app as, from September, app notifications will be our preferred method of communication with you. The app is available through the Google Store or Apple Store, just search for **My Child At School app by Bromcom Computers Plc**.

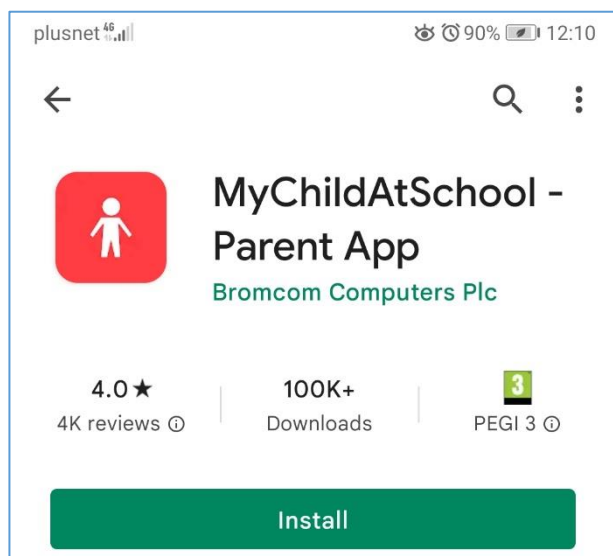

By Monday 11th July the academy will send you an invitation email that contains the details you need to register and log in. This invitation will go to the email address you have provided to the academy.

If you do not get this email, contact the academy to check the email address we hold for you.

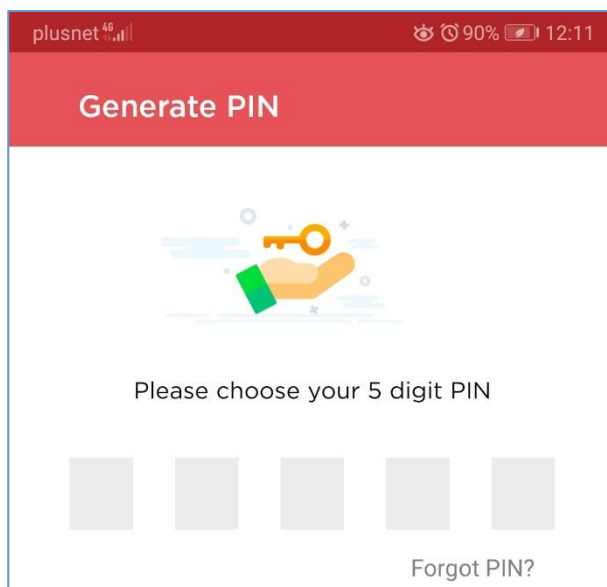

Regards,

Goole Academy

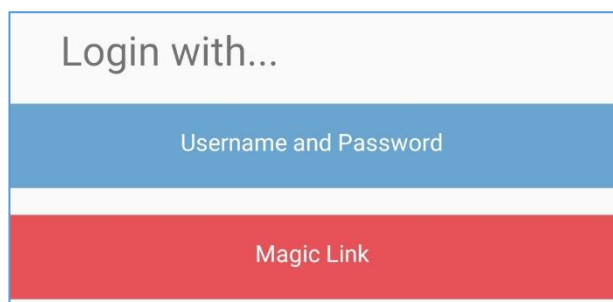

Step 1: Download the app

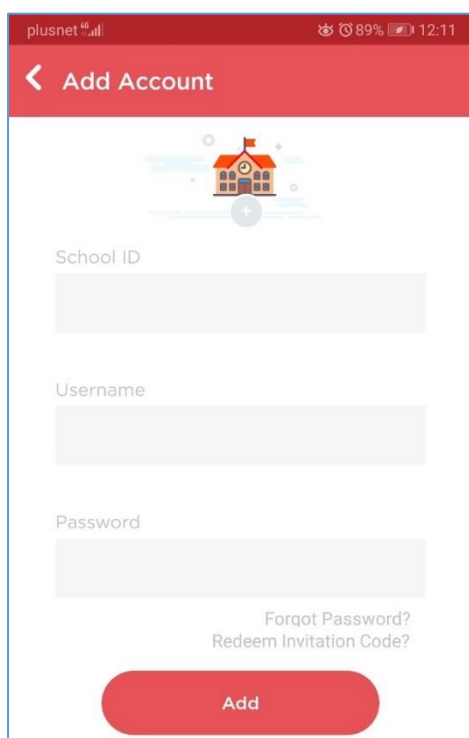

Step 2: Open the app and create a PIN

Step 3: Select Login with Username and Password

Step 5: Enter the details from your invitation email

Step 4: Click on Redeem Invitation Code
